

# Lover Come Back

City and Colour

Bound for trouble from the start  
I've been walking through this old world in the dark  
All along right by my side  
There you were shining, my ray of light

I sing lover come back, lover come back to me  
Won't you ever come back, ever come back to me  
How could I have been so foolish to let you leave  
Lover come back, lover come back to me

I'll never be as good as I'd like to be  
Eternally restless refusing to believe  
But I think that we missed our connection  
I wanted to feel your affection  
Until my final days

I sing lover come back, lover come back to me  
Won't you ever come back, ever come back to me  
How could I have been so foolish to let you leave  
Lover come back, lover come back to me

I am warm enough yet I still shiver  
I am fed but still I starve  
You know me I am the great misgiver  
Always waiting on the clouds to part

I sing lover come back, lover come back to me  
Won't you ever come back back, ever come back to me  
How could I have been so foolish to let you leave  
So lover come back, lover come back to me

Lover come back, lover come back to me  
Won't you ever come back, ever come back to me  
How could I have been so foolish to let you leave  
So lover come back, lover come back to me
