

All I Want

Civet

All I want is you to stand by my side (2x)
I hope you'll understand,
I respect you as my friend
Without you there's no plan
Boys will come and boys will go,
just like street cars

All I want is you to stand by my side (2x)
There's time when life gets hard
Without your friends you won't get far
I got you and that's a start
Never backing down, you're always true yeah

All I want is you to stand by my side (2x)
We've been through everything
We'll be sisters 'til the end,
what's broken we will mend
Boys will come and boys will go,
just like street cars...
