All I Want

All I want is you to stand by my side (2x) I hope you'll understand, I respect you as my friend Without you there's no plan Boys will come and boys will go, just like street cars

All I want is you to stand by my side (2x) There's time when life gets hard Without your friends you won't get far I got you and that's a start Never backing down, you're always true yeah

All I want is you to stand by my side (2x) We've been through everything We'll be sisters 'til the end, what's broken we will mend Boys will come and boys will go, just like street cars... Civet
