

## Night is cold

Civil Twilight

It was a sunny day when they drove away  
And my love disappeared into the clouds  
Where they made her wait  
And they made her burn every picture I ever sent

There's a thing they want so bad  
We call it love  
There's a thing you'll never have  
We call it love  
It moves like the ocean  
It sways like sea  
It'll never fail to be... love

When the city burned and the capital fell  
We were made to walk the road to nowhere  
The ones who still feel were made to kneel  
As if they could have the one thing they could never hold

There's a thing they want so bad  
We call it love  
There's a thing they'll never have  
We call it love  
It moves like the ocean  
It sways like sea  
It'll never fail to be  
It'll never fail to be  
It'll never fail

They can have it, but they'll never hold it  
They can steal it, but they'll never own it  
Never own it
