

## Better Than Get Even

CKY

Nowhere to hide I'm alive & you're blind  
Yeah there's no way for you to win  
You're living in your sins & I'm fine  
(Here we go)

If you're looking for a war I'm here to fight  
No, I ain't looking to get even  
And if you're really keeping score I'd start tonight  
'Cause I'll do better than get even

So, Watch your back  
Look all directions  
Open your eyes  
Pay more attention (here we go)

Second to none, only one at the top  
With an ego thicker than your skin  
Created your own spin, who you're not  
Here we go

If you're looking for a war I'm here to fight  
But I ain't looking to get even  
And if you're really keeping score I'd start tonight  
Yeah I'll do better than get even

So, Watch your back  
Look all directions  
Open your eyes  
Pay more attention (here we go)

Here we go

Here we go

(Here we go)

If you're looking for a war I'll win the fight  
No, I ain't looking to get even (here we go)  
And if you really want some more I say alright  
But I'll do better than get even (so)

If you're looking for a war I'll win the fight  
No, I ain't looking to get even (here we go)  
And if you really want some more I say alright  
But I'll do better than get even (so)
