

## Red Light

Clan of Xymox

She falls into frame  
With a professional pout  
But the Polaroid's ignite  
Upon seeing their subject  
And the aperture shuts  
Too much exposure

Voyeur sucks into focus  
Floodlit the glossy kiss-pit  
But as emulsion drips down - down  
The aperture shuts  
Too much exposure

Come into this room  
Come into this gloom  
See the red light rinsing  
Another shutterslut wincing

The sagging half wit sister  
Pretty, pretty picture  
Of an ancient nipple shrinking  
That kodak whore winking  
'Til the aperture shuts

Too much exposure
