

Your Kiss

Clan of Xymox

Way down below
Some time ago
I hit a wall, a shame
Who knows what's her game?

Black eyes and brows
I forget all my vows
Lips of charm
I chase my foolish dreams away
Away, away

I've been waiting you
I'm needing you
Wish you'd want it too
I'm in love with you

You're haunting me
You're taunting me
You give me and ill repute
You leave me destitute
I'm in love with you

White lies ago
Blackened my soul
It's a kick your kiss
I never knew it would be like this

The love you bestow
The devil i know
It's a cure and a bliss
Your kiss
Your kiss
If you want me to
I can be like you
I want to laugh with you
In the miltitude

Only heaven knows
I've been wanting you
I'm in love with you
I only say the truth
I'm in love with you

I've been waiting you
I'm needing you
Which you wanted too
I've been waiting you
I'm needing you
I am needing you
Which you wanted too
I am in love with you
I am in love with you
