

Your One and Only Man

Eric Clapton

Hey, hey, hey
If I can only make you see
That you were only meant for me
Our love will be free
And I'll be your destiny
Your destiny, your destiny

If I can make you understand
Treat me right and love me
Then I will be your man
Your one and only man

These are the words that I have to say
Live by them each and every day
And as the time pass I know our love will last
Our love will last, our love will last

Take me blue and understand them
Live by them and love me
Then I will be your man
Your one and only man

These are the words that I have to say
Just live by them each and every day
And as the time pass I know our love will last
Our love will last, our love will last

Take me blue and understand
Live by them and love me
Honey I will be your man
Your one and only man
Your sweet lovin' man
I will be your man

(Your one and only man)
(Your one and only man)
(Your one and only man)
(I will be your man).
