

Or A Movie

Classix Nouveaux

When you feel you are lonely
You think you're the only
One who feels that way
You sit watching the wall
Feel like ending it all
If no-one calls to say
Hello, how are you today
Why not come and see a play
Or a movie?
I'll come over anyway
Talk a while, and I may stay
Over, we'll see
All alone in your room
If someone won't come soon
There's no-one's voice but yours
You look out of the window
There's nobody you know
Coming through the door
Silence is the only friend
Feels like we have reached the end
Of a movie
Now there's no more turning back
Everything is grey on black
What do you see?
No-one cares alive or dead
Thoughts run riot in your head
Like a movie
Lock the door and lose the key
Everyone out there you'll be
Sorry, you'll see
Time has never seemed so long
There's no comfort in a song
Or a movie
Couldn't stand it anymore
Tried to find a way out for yours truly
