

# I Will Give You Everything

Clazziquai Project

You know I will give you everything  
I believe my love to you now is filling in the air  
I see I will give you everything  
this moment we're together it's like a dream come true

Will you give your life I want to have it all  
if you listen what i say the memory will take us to  
there  
I've been ever missing you so sadly  
we'll never be apart now I know that I'm into your soul

I will give you everything  
close your eyes and think of me now it will show how  
much I care  
I see I will give you everything  
although we are not together I will keep your heart and  
dream

You know I will give you everything  
I believe my love to you now is greater than before  
I see I will give you everything  
I'll be there to comfort you now anytime and anywhere

Will you give your life I want to have it all  
if you listen what i say the memory will take us to  
there  
I've been ever missing you so sadly  
we'll never be apart now I know that I'm into your soul

I will give you everything  
I will give you everything  
I will give you everything  
I will give you everything
