

The Dreams I Dream

Cliff Richard

My bird has lost it's song
My right turned to wrong
The dreams I dream mean nothing now
The life I knew before
Has crumbled to the floor

The dreams I dream mean nothing now

It's no use telling me she's was a no good
That she had me hung on a string
When I was with her, she made me feel so good
She loved me and I was a king
She loved me and I was a king

The dreams I dream mean nothing now

It's no use telling me she's was a no good
That she had me hung on a string
When I was with her she made me feel so good
She loved me and I was a king
She loved me and I was a king

The life I knew before
Has crumbled to the floor

The dreams I dream mean nothing now
The dreams I dream mean nothing now
The dreams I dream mean nothing now
