

# You're The One

Cliff Richard

Who's the one I'm thinking about so much these days  
Who's the one in my dreams who's got me up and about these days  
I feel very good, but then I guess I should  
'Cause yesterday I never dreamed I'd find the one

'Cause you're the one I got a loving for  
You're mine  
You're the one I gotta see more  
You're mine  
You're the one I got a loving for  
You're mine  
Yeah, you're mine

If I try to tell you the way I feel, I'd be lost for sure  
'Cause there's something new that's happened to me  
I've never known before  
I feel very good but then I guess I should  
'Cause yesterday I never dreamed I'd find the one

'Cause you're the one I got a loving for  
You're mine  
You're the one I gotta see more  
You're mine  
You're the one I got a loving for  
You're mine  
Yeah, you're mine

You can take me away to the big city lights  
Or stay right here where you found me  
I don't care what you do  
I don't care what you say  
Just find some moonlight and love me  
Just find some moonlight and love me

Who's the one I'm thinking about so much these days  
Who's the one in my dreams who's got me up and about these days  
I feel very good, but then I guess I should  
'Cause yesterday I never dreamed I'd find the one

'Cause you're the one I got a loving for  
You're mine  
You're the one I gotta see more  
You're mine  
You're the one I got a loving for  
You're mine

You're the one I gotta see more  
You're mine  
You're the one I got a loving for  
You're mine

You're the one I gotta see more  
You're mine  
You're the one I got a loving for  
You're mine

You're the one I gotta see more

You're mine  
You're the one I got a loving for  
You're mine
