

Young Love

Cliff Richard

There are times - when you know
Love is lost to he who hesitates and you've got that
Feeling now you know it too well
Say O.K. - to your dreams
Never let that chance go by again
If it's love you need then listen and listen well

You've got to run like a young love
You've got to love like young love
Believe me you'll be a young love
You don't need to be anymore
You can think like a young love
Be strong like a young love
You can run like a young love
You don't need to be anymore

Live it now - everyday
'Cos you know there is no better way
And in time you'll understand it's all in your heart
Lightning strikes - in the rain
But you know inside you're strong again
You can hear the thunder roll
But you stand apart

You've got to run like a young love
You can love like young love
Believe me you'll be a young love
You don't need to be anymore
As long as you think like a young love
Be strong like a young love
You can run like a young love
You don't need to be anymore
