

# I Won't Bleed For You

Climie Fisher

You don't know when to stop making your demands  
To meet you more than halfway I've done all I can  
You're one of those whose hunger grows  
You think my very life you own  
I'll give you all I've got to give but I won't bleed  
for you  
I can forget I can forgive but I won't bleed for you  
You may not understand me so let me make it clear  
If you think you can bend me shape me  
You'll never keep me here  
You're one of those who craves control  
But that's not the love I'm looking for

I'll give you all I've got to give but I won't bleed for  
you  
I can forget I can forgive but I won't bleed for you  
I'll take the bad I'll take the good  
But I need freedom too said I need freedom

You snap your fingers and maybe some will come running  
If you end up lonely well baby you've got it coming  
You should learn to love me as I am as I am

You're one of those who craves control  
But that's not the love I'm looking for

I'll give you all I've got to give but I won't bleed  
for you  
I can forget I can forgive but I won't bleed for you  
I'll take the bad I'll take the good but I need freedom  
too  
I'll give you all I've got to give but I won't bleed for  
you
