

# Walking With Thee

Clinic

As you climb up the stairs  
And come back forever  
Summer's in the house  
Untamed it was

Walking with thee  
Walking with thee  
Walking with thee  
Walking with thee

A million joys  
A million joys here  
You could set your watch  
How untamed it was

Walking with thee  
Walking with thee  
Walking with thee  
Walking with thee  
No, no, no, no, no  
No, no, no, no, no, no

As you climb up the stairs  
And come back forever  
Summer's in the house  
Oh, untamed it was

Walking with thee  
Walking with thee  
Walking with thee  
Walking with thee

And melody of joys  
And you can set your watch  
While hunting new words

Walking with thee  
Walking with thee  
Walking with thee  
Walking with thee

And with us, oh no  
You get good affection  
You can set your watch  
Or hunting new words

Walking with thee  
Walking with thee  
Walking with thee  
Walking with thee

No, no, no, no, no  
No, no, no, no, no

If you climb off the stairs  
And come back forever  
Someone's in my house or

Hunting new words

Walking with thee
