Loosen Up My Strings

No one's gonna jerk me around One I get my feet on the ground I'm gonna hit it runnin' Gonna call it a day See, a little bit of tension Goes a long, long way

The boss man has got mine in a sling But I'll be swingin' when I loosen up my strings

Every night when the sun goes down You won't find me hangin' around I'm in loco-motion like a rock out on roll I'm nobody's puppet I'm out of control

The boss man has got mine in a sling But I'll be swingin' when I loosen up my

Now, when it comes to getting down And I'm always keepin' track I don't need some yo-yo takin' up my slack

The boss man has got mine in a sling But I'll be swingin' when I loosen up my strings

Yeah, he'll have a line on me til my fat lady sings But I'll be swingin' while I loosen up my strings Yeah, we'll all be swingin' while I loosen up my strings Hey, we'll all be swingin' when I loosen up my strings
