

## Nathalie

Clouseau

First time I saw you, you were smiling  
You stole my heart, Nathalie  
Ohh I adored you for a while and  
Now you tell me you wanna leave  
Every night and day I'm praying  
Please believe what I'm saying  
This ain't the way things ought to be  
So won't you please stay with me

Nathalie  
Be with me, stay with me  
You're so hard to please  
My love grows bigger by the hour  
I can't move 'cause I'm much too scared  
I wish I wasn't, mm, such a coward  
But it's hard to be a real man  
Now I'm missing you, I'm crying  
I'm not perfect but at least I'm trying  
This ain't love, it's a disease  
Do it to me one more time, if you please
