

Age of Steel

Cloven Hoof

Overthrowing most the known cosmos, the Dominator sent his cyborgs foot soldiers to subdue any subversive uprising.
It heralded the dawn of a new age of Steel!

See the metal men are marching,
bloodlust raging on the streets.
killing fields the bodies burning,
hopes crushed under iron feet.

It's a time for revolution,
as all moving parts stood still.
Battle droids final solution,
humans die so defy and kill.

Welcome to the age of Steel,
Cybernaught's they rise and conquer all.
Welcome to the age of Steel,
Time for man to stand and fight or fall.
Kingdoms fall!

Skull-crushers smash all resistance,
taking cities over everywhere.
Computerised heartless persistence,
genocide screams fill the air.

Ruthless plans harvested people,
an end to flesh don't think or feel.
Synthesised organic cyborgs,
collective thought cogs in a wheel.

Welcome to the age of Steel,
Cybernaught's they rise and conquer all.
Welcome to the age of Steel,
Time for man to stand and fight or fall.
Kingdoms fall!

Enslaved by technology,
we never saw this sorry dawn.
Machines plotted in secrecy,
for a new race to be born.

Do you call this progress?
You are obsolete...
Resistance is futile.
Prepare for mass extinction!

Welcome to the age of Steel,
Cybernaught's they rise and conquer all.
Welcome to the age of Steel,
Time for man to stand and fight or fall.
Kingdoms fall!
