Thought my days here were given up for forgotten Can't burn cedar, it must come out by the roots I'm not driving, but I'm taking bets
Six full hours and we ain't crossed it yet

One more stop after here through Midland I know One more stop
One more stop after here through Midland I know Till I come to rest
Till I come to rest

Turn back now and I might as well read my fortune Lose this vengeance long since been overdue Half-awake there is not much left Walk my dollar across to Juarez

One more stop after here through Midland I know Oh, I know, I know
One more stop after here through Midland I know Till I come to rest

I left some worn-out dreams hanging on a wire
The city that's my passage to the West is just over the
rise, oh yeah
Yeah

I'm not driving, but I'm taking bets
Six full hours and we ain't crossed it yet
One more stop after here through Midland I know
Oh, I know, I know

One more stop after here through Midland I know One more stop after here through Midland I know Till I come to rest Till I come to rest, yeah Till I come to rest

One more stop
Till I come to rest
One more stop
Till I come to rest
