

We've Changed

Cock Robin

Can I give you an inch to be happy in life
But listen, I tried hard and do my best
Just to love you like I did, like I did
I steal from the past I hold in my hand
I dream of a different dream
We'd be running down hills laughing at ourselves
I thought it could be like this
We've changed
No one's ever done this for me
We've changed
And I would do it for you and me
No, no, we've changed
We could stay the same
And live separately without blame
I tried hard and do my best
But could stand me like this
Oh, I can't
I steal from the past I hold in my hand
I dream of a different dream
We'd be running down hills laughing at ourselves
I thought it could be like this
We've changed
No one's ever done this for me
We've changed
No one's ever done this for me
No, no one ever will to begin to climb this sorry hill
Life before was stong
Beginnings seem so very far away
I steal from the past I hold in my hand
I dream of a different dream
We'd be running down hills laughing at ourselves
I thought it could be like this
We've changed
No one's ever done this for me
Oh no, we've changed
No one's ever done this for me
We've changed
Oh now, we've changed
No one's ever
No one's ever does this for me
Oh baby, change
