

Lucky Stars

Coheed and Cambria

This could be the biggest mistake we make in this life
Chasing as we tried to compete for each other's time
From the world we locked ourselves inside, in a place to keep u
s safe from all to see
They can't hide you from me

Thank your lucky stars that we can call this ours
We've had some bad ideas yet we're still here in this life wort
h dreaming
I can be your heart, be your soul, just don't let me off easy,
don't you let me go
Thank your lucky stars that we can call this ours

A lovely mess we find ourselves in, we brave it so bold
Quietly, we dance through the heat, your hand as I hold
But their warnings left us no concerns as we swallow the truth
whole, unoriginal
We're losing control

Thank your lucky stars that we can call this ours
We've had some bad ideas yet we're still here in this life wort
h dreaming of
I can be your heart, be your soul, just don't let me off easy,
don't you let me go
Thank your lucky stars

Remember all the ghosts that you left them with
Remember all the ghosts that you left them with
Remember all the ghosts that you left them with
Don't give 'em up, don't give 'em up, don't give 'em up

Thank your lucky stars that we can call this ours
We've had some bad ideas yet we're still here in this life wort
h dreaming
I can be your heart, be your soul, just don't let me off easy,
don't you let me go
Thank your lucky stars
