

# Fearless

Colbie Caillat

If that's the way you love  
You've got to learn so much  
If that's the way you say goodbye

And this is how it ends  
And I'm alright within  
Never going to see me cry  
Cause I've cried

So go on, go on and break my heart  
I'll be okay  
There's nothing you can do to me  
That's ever going to burn me

So go on, go on and leave my love  
Out on the street  
I'm fearless  
Better believe I'm fearless, fearless

So oh woh oh woh oh...

If this is how it hurts  
It couldn't get much worse  
If this is how it feels to fall

Then that's the way it is  
We live with what we miss  
We learn to build another wall  
Till it falls

Chorus:  
So go on go on and break my heart  
I'll be okay  
There's nothing you can do to me  
That's ever going to burn me

So go on, go on and leave my love  
Out on the street  
I'm fearless  
Better believe I'm fearless, fearless

So oh woh oh woh...

If it's between love and losing  
To never have known the feeling  
And I'm still sad we've loved

And if I end up lonely  
At least I will be there knowing  
I believe in love

Go on, go on break my heart  
I'll be okay  
I'm fearless  
Better believe I'm fearless, fearless

Go on, go on and break my heart

I'll be okay  
There's nothing you can do to me  
That's ever going to burn me

So go on, go on and leave my love  
Out on the street  
I'm fearless  
Better believe I'm fearless

So oh woh oh...

So go on and leave my love  
Go on and leave my love  
Go on and leave my love  
Better believe I'm fearless, fearless  
Fearless...
