

# We All Love

Cold

Living in the world full of hate  
The glaring ignorance we tolerate  
And if all the open wounds bleed the same  
Bleed for me  
I'll bleed for you

We all Love  
Catch us now before we fall  
We all Love  
We all need to live to sing  
We all Love  
We all need a wonder wall  
We all Love  
We all need a place to be  
We all Love  
Catch us now before we fall  
We all Love  
We all need to live to sing  
We all Love  
We all need a wonder wall  
We all Love  
We all need a place to be

We medicate ourselves to numb the pain  
Wrap our innocence in cellophane  
And if all the open wounds bleed the same  
Bleed for me  
I'll bleed for you

We all Love  
Catch us now before we fall  
We all Love  
We all need to live to sing  
We all Love  
We all need a wonder wall  
We all Love  
We all need a place to be  
We all Love  
Catch us now before we fall  
We all Love  
We all need to live to sing  
We all Love  
We all need a wonder wall  
We all Love  
We all need a place to be  
Catch us now before we fall  
We all Love  
We all need to live to sing  
We all Love  
We all need a wonder wall  
We all Love  
We all need a place to be  
Catch us now before we fall  
We all Love  
We all need to live to sing  
We all Love  
We all need a wonder wall

We all Love  
We all need a place to be
