

# What If

Coldplay

What if there was no light  
Nothing wrong, nothing right  
What if there was no time  
And no reason or rhyme  
What if you should decide  
That you don't want me there by your side  
That you don't want me there in your life

What if I got it wrong  
And no poem or song  
Could put right what I got wrong  
Or make you feel I belong  
What if you should decide  
That you don't want me there by your side  
That you don't want me there in your life

R: Oooh, that's right  
Let's take a break, try to put it aside  
Oooh, that's right  
I can't ignore it if you won't even try  
Oooh, that's right

When every step that you take  
Can be your biggest mistake  
And it could bend or it could break  
Well that's just the risk that you take  
What if you should decide  
That you don't want me there by your side  
That you don't want me there in your life

R: Oooh...

Oooh, that's right  
Let's take a break, try to put it aside  
Oooh, that's right  
You know that diamonds are reflective to light  
Oooh, that's right
