

# Come Awake

coldrain

I can't believe that  
After all we've said & done  
You couldn't see how much  
This always meant to me  
Did you ever think about it?  
Before you threw it all away  
We always said that  
We would have each other's backs  
Sorry I didn't see you falling in the cracks  
But I know that you haven't died inside

Throw away what you have now  
All you need is what you had  
You are not alone  
It's time to

Come awake  
It's never really too late  
To start again, recreate  
I'll be there if you need a hand  
Come awake  
If all you need is more time  
To take it slow is just fine  
We'll be there when you see the light  
Come awake

You let the power  
Get the best of who you are  
And only you couldn't see  
How evil you'd become  
You wanted more more more  
We can't take back what we do  
But we can undo tightened knots

I know that your core is still alive

A new day is dawning  
The brand new beginning  
When you see that bright light  
I'll be there we'll be there  
Your new day is dawning  
Your brand new beginning  
It's time to open your eyes
