

I close my eyes and count to ten  
Ease the noise  
All I need is the energy within  
Here we go again for the thousandth time  
With every chord and every hit we will destroy  
Every image you painted in your head  
Here we go again for the thousandth time

If I'm crazy  
For dreaming  
Then lock me away  
And I'll stay sleeping

This moment is all we have  
Don't blink don't think don't hesitate  
We're making history  
This moment is all we need  
Don't blink don't think don't hesitate  
We're making history

We bet our lives you sold pride to stay alive  
Can you live with wondering what if I?  
We'll be broke and hopeless till we die  
But in my heart will be belief  
We never lived a day without our souls  
Alive and free

If I'm crazy  
For dreaming  
Then lock me away  
And I'll stay sleeping

This moment is all we have  
Don't blink don't think don't hesitate  
We're making history  
This moment is all we need  
Don't blink don't think don't hesitate  
We're making history

This moment is all we have  
Don't blink don't think don't hesitate  
We're making history  
This moment is all we need  
Don't blink don't think don't hesitate  
We're making history

In my heart will be belief  
Until the day I die  
My soul will stay alive and free
