

# If You Need Me

Colin James

If you need me  
Why don't you call me?  
Said if you need me  
Why don't you call me?

Don't wait too long  
When things go wrong  
I'll be there, yeah  
Where I belong

Said if you want me  
Why don't you send for me?  
Said if you want, want, want  
All you gotta do is send for me

Don't wait too long  
Justa pick up your phone  
I'll be there, right there  
Where I belong

People always told me, darling  
That you didn't mean me no good  
But I know deep down in my heart  
I've done the best I could

And one of these days, darling, it won't be long  
You're gonna come walking through that door  
And I know in my mind these are the very words  
You're gonna say to me

I still love you  
Always thinking of you  
I still love, love, love  
Always thinking of you

Don't wait too long  
When things go wrong  
I'll be there, right there  
Where I belong
