

# Control

Collie Buddz

For all my failures please don't judge me  
I'm trying my best, just to work it out  
Mean I beg no favours when you grudge me  
It don't affect me when you run your mouth  
'Cause I climb up my ladder  
It's like me find me me long instead me move on  
In at least your time ya I learn my lesson  
If I don't need it me cut it off

When you're up you start to stay in control  
(Yeah you know)  
And it looks like this life is taking its toll  
'Cause everything have a price  
And what you get is what you gotten  
Remember "life is a movie, I'm just playin' my role"

Yeah you have some bad man people them no right you  
You know them still try an' feel you up  
So I speak my mind without no filter  
No can chill with me about  
I can't win every battle  
So, me know if they fight and what they leave alone yeah  
They can't choose my words say what me feel  
Because time is only out

When you're up you start to stay in control  
And it looks like this life is taking its toll  
'Cause everything have a price  
And what you get is what you gotten  
Remember "life is a movie, I'm just playin' my role"

Then get through life through me livin'  
But then I know the percentage where me givin'  
One hundred me agrees every time  
In every song every beat every line  
It's a them me find me, me tell 'em stop cryin'  
Then they work for nothin', then they'll know bout' the cryin'  
When they wanna sleep in the studio on my time  
Then they livin' some are lyin'

So

When you're up you start to stay in control  
And it looks like this life is taking its toll  
'Cause everything have a price  
And what you get is what you gotten  
Remember "life is a movie, I'm just playin' my role"

When you're up you start to stay in control  
And it looks like this life is taking its toll  
'Cause everything have a price  
And what you get is what you gotten  
Remember "life is a movie, I'm just playin' my role"
