

Bad Day

Colt Ford

I kicked a two pack habit like I never had it
Quit cold turkey, never looked back at it
Just walked away, that was it, no regrets
I kept my resolution for new year's day
To stop using, abusing God's name in vain
And I meant it when I said it, and I did it
But when I drove past that bar in [?]
Where we first dance and I held you close
That's when it hit me that you weren't with me

I picked a bad day to lay that bottle down
How do you stop and not twist the top
After watching the one you love walk out
It's gonna take a lot more than 12 steps
To get me to dry ground
I picked a bad day to lay that bottle down
'Cause when it comes to you I could sure use another round

I don't know what's worse, this head that hurts
Or this heart that aches from the pain of a bad goodbye, oh
But I stayed up all night hitting the wine
Playing over and over and over in my mind
What I should have said, about a thousand times
Heading straight for the kitchen, the second shelf
Up above the fridge, I couldn't help myself
It just hit me that you weren't with me

I picked a bad day to lay that bottle down
How do you stop and not twist the top
After watching the one you love walk out
It's gonna take a lot more than 12 steps
To get me to dry ground
I picked a bad day to lay that bottle down
'Cause when it comes to you I could sure use another round

I picked a bad day to lay that bottle down
How do you stop and not twist the top
After watching the one you love walk out
It's gonna take a lot more than 12 steps
To get me to dry ground
I picked a bad day to lay that bottle down
'Cause when it comes to you I could sure use another round

Oh, yeah I could sure use another round
How about one more round
