

# Pipe The Sunshine In

Colt Ford

I been hipper, folks, talking 'bout the Boondocks  
Singing 'bout the hollers waiting back in the woods  
Don't know nothing, ain't ever been mudding  
Gotta get a little dirty like a country boy should

Come on down, pitch a rib, get a swallow  
Son, we live so far back in the hollow

We'll pipe the sunshine in and the moonshine out  
Gonna show you what a real hillbilly's about  
Light up the smoke and pass the jug around  
Get drunk in a good ol' round

Ain't hayseed, honey, don't care about the money  
Just a super big black muffler's sound  
We're tearing it up and throwing it down  
We'll pipe the sunshine in and the moonshine out

You wanna know how to get here, follow them John Deeres  
Place this small ain't on the map  
Whiskey in the mountain and, Lord, I just love it here  
Get a little swig of this sour mash

Come on down, pitch a rib, get a swallow  
Son, we live so far back in the hollow

We'll pipe the sunshine in and the moonshine out  
Gonna show you what a real hillbilly's about  
Light up the smoke and pass the jug around  
Get drunk in a good ol' round

Ain't hayseed, honey, don't care about the money  
Just a super big black muffler's sound  
We're tearing it up and throwing it down  
We'll pipe the sunshine in and the moonshine out

Come on down, if you think you can hang  
We'll be kicking up dust and raise us a Cain  
This a hillbilly hoedown, redneck throw down  
Country kind of thing

We'll pipe the sunshine in and the moonshine out  
We'll show you what a real hillbilly's about  
Light up your smoke, pass the jug around  
Get drunk in a good ol' round, yeah

Ain't hayseed, honey, don't care about the money  
Just a super big black muffler's sound  
We're tearing it up and throwing it down  
We'll pipe the sunshine in, we'll pipe the sunshine in  
We'll pipe the sunshine in, yeah, and the moonshine out

Way back in the back roads  
We'll pipe the sunshine in and the moonshine out
