Build Ramps Not Bombs!

Common Enemy

```
Build ramps, not bombs!

Tear down the factories that create the weapons, replace them w ith halfpipes

And crazy sick sessions

Build ramps, not bombs!

Tired of living, in your world of shit,

I'd rather thrash, do something fun with it!

Build ramps, not bombs!

Doing what it takes to get thru my fucking day,

Pave over and build

On top of what makes this world decay,

History left a playground of

Concrete for us to shred,

So grab your fucking board and lets have a blast!

Build ramps, not bombs!
