

## A Place Where We Can Stay

Common Rider

There is more at stake  
Than all my petty problems  
Like the way that the moonlight  
Sings its quiet logic  
To the Florida coast  
And the answering tide  
And you're watching it with me  
Like an angel by my side

And I know that I love you  
Forever and a day  
And I know that I found  
A place where we can stay

There is more at stake  
Than all my restless plans  
Like the way that the heat of the day  
Lingers in the sand  
And you're feeling it with me  
In the gentle night  
You're like a dream come true to me girl  
Trouble gonna be alright
