

Tonight

Concrete Blonde

Walking on a cloud to another shore
A luminous and beautiful promise of more

Tonight I'll be with you
Tonight I'll be with you

Walking through time
Dancing through space
The pearly-gray moon is wearing your face
And tonight I'll be with you
Tonight I'll be with you
Oh I hear your voice
Oh I have no choice I follow

Swinging on a star
Flying around
This is so bizarre, maybe
I better come down

Tonight I'll be with you
Tonight I'll be with you

Let's go planet hopping
Through the universe
There's no stopping us
Where to first?

Tonight I'll be with you
Tonight I'll be with you
