

Loving You Has Sure Been Good to Me

Connie Smith

I can't believe the things I hear and see but there you are
Just as real as I can be
You made me happy baby so very happy baby
Loving you has sure been good to me
It's really you this time it's really true cause I can feel
Something tingling through and through
Well I want to thank you baby for everything you gave
Loving you has sure been good to me
Loving you has sure been good to me
When I was tired and down on livin'
Before my heart done high on lovin' you
I can't recall one day it didn't rain on me
You made my dreams worth dreamin'
You made my song worth singin'
You made the sun come out and shine for me
Know for now I got alone without you up till now
You're what love is all about
You came along and loved me when I was cold and lonely
Loving you has sure been good to me
Loving you has sure been good to me
Loving you has sure been good to me
Loving you has sure been good to me
