

# Where Is My Castle

Connie Smith

More than once I cried because impatience let me down,  
I could see the gold before the gold was found  
And every time I trusted love to lead me by the hand,  
It circled back and left me where I stand

Where is my castle where is my destiny  
How much longer will I have to dream,  
Where is my sunshine  
Where is my valley  
Where is the love that's meant for me

The next time I cross over that old bridge I'm gonna stay,  
I don't care if the river washes it away  
'Cause I'm not gonna take one step until the day I find,  
A man with a faithful heart and a made up mind

Where is my castle where is my destiny  
How much longer will I have to dream,  
Where is my sunshine  
Where is my valley  
Where is the love that's meant for me
