

Another Man's Woman

Conway Twitty

I've tried to be strong I've tried to leave town
This conscience of mine is getting me down
I needed a love someone sweet and kind
But another man's woman was all I could find

Another man's woman how low can I get
It's too soon to answer for I'm falling yet
There's so many others who need love like mine
But another man's woman was all I could find

There's so many others
