## **But I Dropped It**

## **Conway Twitty**

I was a man with a world in his hand but I dropped it A world of dreams a world of plans but I dropped it It didn't lay there very long I turned around and it was gone He took my girl he put my world right in his pocket

All she wanted was my love and understanding I didn't care enough I wasn't bear enough and she got lonely

I was a man with a world in his hand but I dropped it A world of dreams a world of plans but I dropped it And good things don't just lay around neglected on the ground He took my girl he put my world right in his pocket He took my girl he put my world right in his pocket
