

Darling Days

Conway Twitty

If I never love again I won't feel cheated
You gave me more than I knew how to use
On the day we met my journey was completed
Even though my autumn years won't be with you.

Seems like yesterday we called each other darling
Seems like yesterday you reached and touched my hand
I'd love to hear you say good morning darling
Oh, what I'd give to live those darling days again.

Today my heart survives on love that's borrowed
From all the happy yesterdays we knew
If I knew for sure the world would end tomorrow
I have to spend my last days loving you.

Seems like yesterday we called each other darling
Seems like yesterday you reached and touched my hand
I'd love to hear you say good morning darling
Oh, what I'd give to live those darling days again.

Oh, what I'd give to live those darling days again
