

Don't You Believe Her

Conway Twitty

She can give you a reason to live if she wants to
She can make you forget other loves that you've known
She has two lips and two arms that thrill you as bad if you do
And if you want her to give them to you she will

Don't you believe her I did and soon she'll be leaving me
Don't you believe her I did and soon she'll be leaving you

She can tell you a lie you'll believe if she has to
And you'll trust her till time and tide both stands still
She can cry on your shoulder and swear to the things that she won't do
Ah but be careful cause when you're not looking she will
Don't you believe her
Don't you believe her
