

# Goodbye Time

Conway Twitty

It's your life  
You say you need a change  
Don't all the dreams we've seen come true  
Mean anything

You say, "It's different now"  
And you keep starin' at the door  
How can you walk away?  
Don't I matter anymore

If being free is worth what you leave behind  
And if it's too late for love to change your mind  
Then it's goodbye time

If we had known  
Our love would come to this  
We could have saved our hearts the hurt  
Of wasted years

"Well it's been fun"  
What else can I say  
If the feeling's gone  
Words won't stop you anyway

If being free is worth what you leave behind  
And if it's too late for love to change your mind  
Then it's goodbye time
