

I Got A Good Thing Going

Conway Twitty

I got a good thing going and I guess it's showing
Everybody knows what I've got going's going wrong
She loved me and I let her down and that upset her
And now the good thing I got going's going going gone

And I just started feeling the realness of her leaving
And without a doubt she's the reason that I sing this song I'm
singing

I got a good thing going and there's no way of knowing
Just how far her leaving's gonna take her off or how long
She never thought I'd amuse her but I sure misused her
I got a good thing going going going gone

And I just started feeling

I got a good thing going going going gone
