

Private Part Of My Heart

Conway Twitty

Operator, I'm calling long distance
Please charge it to my room, 702

Hello, baby
No, there's nothing wrong
You know me
When I'm away from you

You see a blue moon hanging
Low outside our window?
And it's hard to sleep with
All of those feelings around

Oh, if I had wings tonight
You could imagine things
I never wanted you more
Than I want you right now

Looking out at the city
It sparkles and it shines
But it holds no fascination
Compared to you

Save me some long nights
And your wildest dreams
And all of your love
And some of that moon

Life may take me down
A winding road
But nothing in this world
Can change my love

Forever you can believe
You'll always be here with me
In the warmest private part of my heart

Right here
In the warmest private part of my heart
Right here
In the warmest private part of my heart
