

She Can Only See The Good In Me

Conway Twitty

She wants the world to know she loves me so
My woman can only see the good in me

She never had a thing she needed just enough to get by
And many times I've done her wrong late at night I've hurt her
pride
She don't complain at the bad she's had and the things that use
d to be
She wants the world to know she loves me so
My woman can only see the good in me

She soon forgets the many times I've hurt her
And accepts me for what I am not for what I should be
And through all the bad she's had she just lives for me to love
her
And she can only see the good in me
[steel]
Where did love come from why does it stay how can she go on thi
s way
What happened to all the dreams I had for her just yesterday
It's not her fault they didn't work out all my dreams were fant
asy
Still by my side she walks with pride and she can only see the
good in me
My woman can only see the good in me
