

# That Kind Of Girl

Conway Twitty

You're just a kind of girl everybody wants to meet  
You've got a way about you when you walk down the street  
That makes me wonder if I'm gonna lose your love someday  
And I'm the kinda guy that don't stand in your way

All my life I've been afraid of losing you  
Although you never really done me wrong  
But there's always the chance you might find someone new  
And break the heart that loves you for so long

You're just a kind of girl everybody wants to meet  
You've got a way about you when you walk down the street  
That makes me wonder if I'm gonna lose your love someday  
And I'm the kinda guy that don't stand in your way

You're just the kind of girl that likes to have some fun  
And though I'm jealous of you, it's alright  
Just as long as I am still the only one  
You turn to when it's time to say goodnight

You're just a kind of girl everybody wants to meet  
You've got a way about you when you walk down the street  
That makes me wonder if I'm gonna lose your love someday  
And I'm the kinda guy that don't stand in your way
