

Things I Lost In You

Conway Twitty

It's over I've known it for a long time
So I went out and found somebody new
She gave me the kind of love I wanted
And I found in her the things I lost in you

I loved you darling how I loved you
I still recall each tender memory
But there's one thing I guess I'll never understand
What made you turn and walk away from me

I thought it would last for a lifetime
I didn't think you'd ever prove untrue
Ah but it's over I found someone who really cares
And I found in her the things I lost in you
