

Your Love Had Taken Me That High

Conway Twitty

There's no need in goin' over all the things that took me under
It's bad enough just bein' here without explainin' why
There was nowhere else to go after bein' next to heaven
Did you know your love had taken me that high?

Did you know your love had taken me that high?
To the peaks of mountains reachin' to the sky
You took me inside of love, a sight that I have never seen befo
re
Did you know your love had taken me that high?

There's no use in my describin' all the hurtin' I've been hidin'
,
I've been makin' love to shadows, just your image in my mind
I still think about the first night we laid and held each other
I never knew love could take a man that high

Did you know your love had taken me that high?
To the peaks of mountains reachin' to the sky
You took me inside of love, a sight that I have never seen befo
re
Did you know your love had taken me that high?

Did you know your love had taken me that high?
To the peaks of mountains reachin' to the sky
You took me inside of love, a sight that I have never seen befo
re
Did you know your love had taken me that high?
