

# Thanks to You

Copeland

It's been a long two years.  
It's time to smile we've made it this far just like you said.  
Just like you said we would.  
There are no more tears.  
We've used them all so now we'll rely on our laughter,  
And the faith that pain gives joy.

I hope that you can see the strength that pulled us through  
Is now passed on to me I need to wear it like you always do.  
Like you always do.

This far from home,  
It doesn't feel as far when I know you're doing well.  
Distance is what you make it.  
The distance is what you make it.

I hope that you can see the strength that pulled us through  
Is now passed on to me I wear it like you always do.  
I hope that you can see the strength that pulled us through  
(I hope that you can see the strength that pulled us through)  
Is now passed on to me I wear it like you always do.  
(Is now passed on to me)  
Like you always do.

I hope that you can see the strength that pulled us through  
(I hope that you can see the strength that pulled us through)  
Is now passed on to me I wear it like you always do.  
(Is now passed on to me)  
I hope that you can see the strength that pulled us through'  
(I hope that you can see the strength that pulled us through)  
Is now passed on to me I need to wear it like you always do.  
(Is now passed on to me)  
Like you always do.
