

# Everytime You Smile

Corey Hart

May you forever light the world's darkest spaces  
A friend of mine wrote you those words  
So keep believing fairy tale clouds  
Cause one day you'll follow the path  
Where your heart will lead  
May you forever hear the sounds of joy and innocence  
I will try my best to protect you from the storms  
Close your eyes and fall asleep, peaceful in my arms  
Always remember, everytime you smile precious child  
You light the day, you light the day

May you forever dream of golden meadows  
And ferris wheels  
Surrounded by music in your heart  
You can wish upon a star, magic will come true  
You can count on this by far, everytime you smile  
I said everytime you smile, precious child  
You light the day

You light the day, you light the day, precious child  
You light the day, you light the day, my precious child  
My precious child, my precious child of mine
