

Without You

Corey Hart

Like falling from Graceland
Beyond the hills of Savannah
Had a dream you were leaving me
Images rage through my brain
Till they crash and burn,
Wake-up, wake-up

I know you are near me
As I watch you sleeping
You know there is no danger here
Only the love, love breathes when I'm with you

Can't, can't live without you
Without you
Can't live without you
I can't live without you

And if I ever lose my faith
In the jungle of my fears
So let the compass of my heart
Guide me safe back into your light

Can't, can't live without you
I can't breathe without you
Can't live without you
I can't breathe without you
I can't live without you

Everywhere I go I follow you...
From the hills of Savannah, yea
Live without you
Can't can't live without you
