

It ain't far from where mine to yours is
The centerback houses
And the Jews are gettin' hard as we're gettin' older
Trapped to the government roller
They take the needle to heartache
The wind from the boulders
They take the needles at painstake
And the needles in heartache

I went soul school
I went piggy in the middle with you
I went soul school

Manchester and Liverpool

Ice cream is running down the cone
Did you ever get to wonder when
Why children enough were sent to reach us
Testing people have enough

Well it's the national high plane
Flapping on the warm wind
The waikiki I'm fastening
Please down tomorrow it will come too soon

I went soul school
I went piggy in the middle with you
I went soul school

Manchester and Liverpool

Up turns rock, the next episode
The school is sold
I went soul school
I went piggy in the middle with you
I went soul school
